# Accountant Profession Education Program (PPAk)

## INTRODUCTION

Today's accounting graduates live in global competition. As is known, accounting services are one of the eight services agreed upon in the Mutual Recognition Arrangement (MRA) in ASEAN countries. These conditions bring both opportunities and threats for accountant graduates in ASEAN countries, especially Indonesia. The question is whether Indonesian accountants are ready to face the opportunities and threats of global competition? The Indonesian Institute of Accountants (IAI) has attempted to welcome the MRA for accounting services by preparing the certification so-called Chartered Accountant Indonesia (CA). According to IAI, the CA qualification has qualified as a professional accountant in accordance with international standard guidelines. The Accountant Profession Education Program at the University of Surabaya (PPAk Ubaya) has been appointed as a continuing education center in the provision towards accountant profession certification. PPAk Ubaya has been providing professional education services since 2002. Armed with experience in professional education services, PPAk Ubaya is committed to providing excellent services to equip students with the knowledge and skills to be ready to face CA and/or Certified Public Accountant of Indonesia (CPA) certification.
